**Understanding of Class Shooting Procedures**

This section states that you and your student understand that they will be out and about on the school campus as well as off campus with limited supervision. They can walk and/or ride the public bus to locations around the east Des Moines vicinity during class time. Sometimes the teacher will be with them and other times they will be in groups with other students in these situations. At ALL times they will be responsible young adults and remember to BE EAST (Engaged, Accountable, Safe, Thoughtful) and represent our school in a good manner.

**Permission to Use Your Name and Artwork**

**If** I choose your student's work for Photo of the Month or to be in our annual Photography Calendar(s) or as some other form of reproduction, I will need parental/guardian permission to print your student's name on the project. By signing below you are giving permission to use your student's name as a way to acknowledge their hard work and success in photography class this semester, for purposes of promoting/supporting our photography program.

**Cell Phone or E-Mail Contact Sheet**

I have implemented a program where I text/e-mail students upcoming due dates as well as general and emergency group communication in my classroom, it seems to work very well. I send short text messages from my school e-mail account directly to students' or parents' cell phones or e-mail accounts. I encourage everyone to participate, as it utilizes a great resource that most of us already have. Please feel free to add yourself to the class list!

**Note:** Anything that will be sent will also be written on the board and talked about in class; no "new" assignments or information will be sent to cell phones.

**Parent/Guardian Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

This just lets me know that you read through this sheet and you are ok with me using this form of communication.
